

FLIP CLIPS**DESCRIPTION**

The patented Pabco Flip Clips are fabricated from Type 304 stainless steel and let you band twice as fast as conventional wing-type seals. They are self-tensioning and require no tools - just pull the strap through the clip and flip down tightly. The Flip Clip is removable and reusable, so pipe inspection and reinsulation are faster and easier.

- * No tools needed
- * Self Tensioning
- * Removable and reusable

Available attached to Type 300 Series stainless steel banding, packaged in bundles of 25, in lengths to your specifications. Also available separate for use with 1/2" (13mm) banding, packaged in boxes of 100 per each.
